CONTENTS

No. 1. January, 1946

Histochemical Contributions to Physiology. *Edward W. Dempsey and George B. Wislocki*.... 1
The Coronary Circulation. *Donald E. Gregg*.... 29
Recent Experimental Studies on Leukemia. *J. Furth*.... 48
Neural Mechanisms of Cutaneous Sense. *Geo. H. Bishop*.... 78
The Absorption of Triglyceride Fat from the Intestine. *A. C. Frazer*.... 104
The Use of Isotopically Marked Carbon in the Study of Intermediary Metabolism. *John M. Buchanan and A. Baird Hastings*.... 121
Yawning and Associated Phenomena. *A. Price Heusner*.... 157

No. 2. April, 1946

Sympathomimetic Amines: The Relation of Structure to Their Action and Inactivation. *Karl H. Beyer*.... 169
The Fixation of Carbon Dioxide and the Inter-Relationships of the Tricarboxylic Acid Cycle. *Harland G. Wood*.... 198
The Effect of Body Temperature on Drug Action. *Frederick A. Fuhrman*.... 247
Lipins and Lipidoses. *S. J. Thannhauser and Gerhard Schmidt*.... 275

No. 3. July, 1946

Chemotaxis in Leukocytes. *Morton McCutcheon*.... 319
The Physiology of Nervous Systems of Invertebrate Animals. *C. Ladd Prosser*.. 337
The Pharmacology of the Veratrum Alkaloids. *Otto Krayer and George H. Acheson*. 383
Arthropod Nervous Systems: A Review of Their Structure and Function. *John H. Welsh and William Schallek*.... 447

No. 4. October, 1946

Biotin and the Avidin-Biotin Complex. *Roy Hertz*.... 479
The Metabolism and Permeability of Normal Skin. *Herbert O. Calvery, John H. Draize and Edwin P. Laug*.... 495
Mechanism of the Development of Obesity in Animals with Hypothalamic Lesions. *John R. Brobeck*.... 541
Carbonic Anhydrase in Tissues other than Blood. *Horace W. Davenport*.... 560
Preparation and Chemistry of Anterior Pituitary Hormones. *Abraham White*.. 574
Organization of the Respiratory Center. *Robert F. Pitts*.... 609
